Subject: Mining waste

It's hard for me to believe that the EPA would for one moment consider it acceptable to allow uranium mining waste to be dumped in any aquifer.

If the EPA is not our champion and our protection against pollution of our drinking water, the air we breathe, and the God given beauty of our natural environment, then what on earth is its function!??!

Please do your job and do NOT allow the dumping of mining waste into the South Dakota aquifer, or any other act of pollution!
